CONTENTS OF VOLUME 11

Abraham, L., Potegal, M., & Miller, S. **Evidence for caudate nucleus involvement in an egocentric spatial task: Return from passive transport** 11

Abraham, L. See Miller, S.

Barry, R. J. **Primary bradycardia and the evoked cardiac response in the OR context** 135

Bell, J. See Laughlin, N. K.

Bernard, D. L. See Chafetz, M. D.

Brookes, S., Rawlins, J. N. P., Gray, J. A., & Feldon, J. **DRL performance in rats with medial or lateral septal lesions** 178

Brown, J. S. See Cunningham, C. L.

Burright, R. G. See Smith, G. J.

Butler, A. C. See Osborne, G. L.

Butters, N. See Holmes, E. J.

Caine, B. See Powers, A. S.

Castellano, C., & Pavone, F. **Naloxone-reversible effects of ethanol on passive avoidance behavior in mice** 291

Chafetz, M. D., & Bernard, D. L. **Handling: Effects on eight-arm-maze behavior and hippocampal trace metals** 261

Colpaert, F. See De Witte, Ph.

Cranney, J., & Powers, A. S. **The effects of core nucleus and cortical lesions in turtles on reversal and dimensional shifting** 103

Cunningham, C. L., & Brown, J. S. **Escape from fear under alcohol: Fear inhibits alcohol-enhanced responding** 81

De Witte, Ph., Colpaert, F., & Schmitt, P. **The self-regulation of hypothalamic rewarding brain stimulus after innoculation of *Mycobacterium butyricum* inducing chronic arthritis** 201

Domjan, M., & Siegel, S. **Attenuation of the aversive and analgesic effects of morphine by repeated administration: Different mechanisms** 155

Donovick, P. J. See Smith, G. J.

Dutch, J., & Redman, S. **Tonic and phasic changes in interbeat interval and ECG transit time during the foreperiod of a reaction time task** 130

Dutch, J. See Redman, S.

Eason, R. G., Oakley, M., & Flowers, L. **Central neural influences on the human retina during selective attention** 18

Ellen, P., & Weston, S. L. **Problem solving in the rat: Septal lesion effects on habituation and perseverative tendencies** 112

Feldon, J. See Brookes, S.

Finger, S. See Laughlin, N. K.

Finger, S. See Simons, D. J. (2)

Flowers, L. See Eason, R. G.

Forster, M. J., & Nagy, Z. M. **Potentiation of locomotor activity by d-amphetamine in infant Swiss-Webster mice** 278

Gallardo, K. See Thompson, R.

Gjestland, T. See Nivison, M.

Glassman, R. B. **Dissociation of vertical and horizontal components of somesthetic orientation-localization during recovery from cortical damage: Implication regarding central associative functions** 47

Goetsch, V. L., & Isaac, W. **The effect of occipital ablation on visual sensitivity in young and old rats** 173

Goodlett, C. R. See Smith, G. J.

Graham, F. K. See Hackley, S. A.

Gray, J. A. See Brookes, S.

Hackley, S. A., & Graham, F. K. **Early selective attention effects on cutaneous and acoustic blink reflexes** 235

Hammond, G. R., & Jordan, P. M. **Bilateral electrodermal activity during performance of cognitive tasks of varying difficulty levels** 256

Hammond, G. R. See Martin, R. L.

Harrell, E. H. See Wallace, F. L.

Hartunian, C. See Randich, A.

Hienz, R. D. See Turkkan, J. S.

Hirai, H. See Tsuda, A.

Holmes, E. J., Butters, N., Jacobson, S., & Stein, B. M. **An examination of the effects of mammillary-body lesions on reversal learning sets in monkeys** 159

Ikeda, Y. See Sakai, M.

Isaac, W. See Goetsch, V. L.

Isaacson, R. L. See Ryan, J. P.

Isaacson, R. L. See Schmajuk, N. A.

Jacobson, S. See Holmes, E. J.

Jordan, P. M. See Hammond, G. R.

Judge, M. E. See Quartermain, D.

Kaplan, H. **Housing condition and seizure susceptibility in Mongolian gerbils** 191

Kaplan, L. See Powers, A. S.

Kelsey, J. E. **Ventromedial septal lesions in rats reduce stomach erosions produced by inescapable shock** 283

Laughlin, N. K., Finger, S., & Bell, J. **Early undernutrition and later hippocampal damage: Effects on spontaneous behaviors and reversal learning** ... 269

Lin, K.-N. See Thorne, B. M.

Lyons, G. M. See McCanne, T. R.

Martin, R. L., & Hammond, G. R. **Lateral hypothalamic electrode implantation disrupts lithium-chloride-based generalized aversion to sodium chloride by enhancing sodium appetite** 63

Meyer, P. M. **Editorial** 223

Miller, S., Potegal, M., & Abraham, L. **Vestibular involvement in a passive transport and return task** 1

Miller, S. See Abraham, L.

Mowrey, H. See Richardson, R.

Murphy, H. M., & Wideman, C. H. **Self-starvation and activity stress in Brattleboro rats** 209
Murphy, H. M. See Wideman, C. H.
Nagy, Z. M. See Forster, M. J.
Nishikawa, T. See Tsuda, A.
Nivison, M., Ursin, H., & Gjestland, T. **Heart rate and the behavioral orienting response in the rat** ... 251
Oakley, M. See Eason, R. G.
Osborne, G. L., & Butler, A. C. **Enduring effects of periadolescent alcohol exposure on passive avoidance performance in rats** 205
Paré, W. P. See Tsuda, A.
Pavone, F. See Castellano, C.
Poplawsky, A. **Responding on a multiple schedule of reinforcement as a function of different septal lesions in the rat** 125
Potegal, M. See Abraham, L.
Potegal, M. See Miller, S.
Powers, A. S., Caine, B., & Kaplan, L. **The effects of lesions in telencephalic visual areas on stimulus generalization in pigeons** 147
Powers, A. S. See Cranney, J.
Quartermain, D., & Judge, M. E. **Retrieval enhancement in mice by pretest amphetamine injection after a long retention intereval** 166
Randich, A., & Hartunian, C. **Activation of the sinoaortic baroreceptor reflex arc induces analgesia: Interactions between cardiovascular and endogenous pain inhibition systems** 214
Rawlins, J. N. P. See Brookes, S.
Redman, S., & Dutch, J. **Classical conditioning of arterial pulse transit time and ECG-initiated transit time with the cold pressor as unconditioned stimulus** 87
Redman, S. See Dutch, J.
Ryan, J. P., & Isaacson, R. L. **Intra-accumbens injections of ACTH induce excessive grooming in rats** 54
Sakai, M., Yagi, F., & Ikeda, Y. **Evoked potential in the visual cortex as modified by enucleation of one eye in the albino rat** 141
Schmajuk, N. A., Spear, N. E., & Isaacson, R. L. **Absence of overshadowing in rats with hippocampal lesions** 59
Schmitt, P. See De Witte, Ph.
Siegel, S. See Domjan, M.
Simons, D. J., & Finger, S. **Neonatal vs. adult sensorimotor cortex damage: The ability to use spared cortical fragments of target tissue to guide tactile learning** 29
Smith, G. J., Goodlett, C. R., Burright, R. G., Donovick, P. J., & Spear, N. E. **The presence of home-cage stimuli attenuates spontaneous-alternation deficits in rats with septal lesions** 119
Spear, N. E. See Schmajuk, N. A.
Spear, N. E. See Smith, G. J.
Stein, B. M. See Holmes, E. J.
Tanaka, M. See Tsuda, A.
Thompson, R. **Abnormal learning and forgetting of individual spatial reversal problems in brain-damaged rats** 35
Thompson, R., Gallardo, K., & Yu, J. **Posterolateral hypothalamic and midbrain central gray lesions impair visual and spatial reversal learning: Further additions to the "general learning system" of the rodent brain** 93
Thompson, R., & Yu, J. **Specific brain lesions producing nonspecific (generalized) learning impairments in weanling rats** 225
Thorne, B. M., Lin, K.-N., & Weaver, M. L. **Water intake after septal damage in Long-Evans hooded rats and muricide, irritability to handling, and open-field activity** 73
Tsuda, A., Tanaka, M., Nishikawa, T., Hirai, H., & Paré, W. P. **Effects of unpredictability versus loss of predictability of shock on gastric lesions in rats** 287
Turkkan, J. S., & Hienz, R. D. **Comparison of cardiovascular and behavioral responses to near-threshold acoustic stimuli in baboons** 243
Ursin, H. See Nivison, M.
Wallace, F. L., & Harrell, E. H. **Nucleus circularis and lateral preoptic regulation of osmotic thirst** ... 195
Weaver, M. L. See Thorne, B. M.
Weston, S. L. See Ellen, P.
Wideman, C. H., & Murphy, H. M. **The effects of restraint and restraint plus intermittent shock on ulcer formation in Brattleboro rats** 78
Wideman, C. H. See Murphy, H. M.
Wilcott, R. C. **Preoperative habituation and effects of prefrontal lesions on an autonomic response of the rat** 185
Yagi, F. See Sakai, M.
Yu, J. See Thompson, R. (2)
